INTL FCStone Releases Honduras — The Great Coffee Comeback

The latest in their "From the Farmer Series" details the resurgence of Honduras as a coffee producing powerhouse.

NEW YORK, July 20, 2016 (GLOBE NEWSWIRE) -- INTL FCStone Inc. (NASDAQ:INTL), a diversified global financial services organization delivering execution and advisory services in commodities, currencies, and securities, today announced the availability of Honduras — The Great Coffee Comeback, the latest in their "From the Farmer Series."

"After a devastating roya infestation, the country's coffee crop was decimated," says Alexis Rubinstein, Senior Editor with INTL FCStone Financial Inc, "Incredible demand for the product and the development of disease resistant trees incited the country's coffee growers to double down and Honduras again ranks first in Central America, third in Latin America, and sixth globally in coffee exports by volume."

Honduras — The Great Coffee Comeback details the post-roya situation in Honduras and presents the results of on-the-farm interviews with some of the country's biggest coffee growers. Rubinstein continues, "This unique glimpse into one of the world's most important coffee producing countries provides valuable insight to the challenges faced by coffee growers and the impact these challenges may have on supply."
